LENDER R. VILLAREAL

Software Developer | C# .NET Developer

472 Purok 7 Brgy. Longos Calumpit, Bulacan PH | (0927) 445-0042
| lendervillareal.business@gmail.com

PROFESSIONAL SUMMARY

IT professional with 6 years of experience developing and supporting banking, financial, and enterprise systems. Skilled in C#/.NET, SQL Server, REST APIs, and application development, with experience in system integration, automation, troubleshooting, and deployment. Experienced in Agile/Scrum environments and collaborating with clients and teams to deliver reliable solutions.

WORK EXPERIENCE

Consultant Programmer

Genpact | Muntinlupa City | March *2023 – October 2026*

- Developed and maintained web-based financial services using C# .NET and SQL Server, following Scrum methodology.
- Developed and maintained front-end features using AJAX for 3 years and React for 1 year, improving user interactions and application responsiveness.
- Designed and implemented APIs and bridge systems for retrieving and processing foreign exchange rates, enabling real-time currency conversions.
- Conducted code reviews to enforce best practices, security standards, and maintainability.
- Managed application deployments, ensuring smooth releases and resolving deployment issues.
- Implemented bug fixes and performance enhancements based on JIRA client-reported issues.
- Developed a Review Form and Annotation system using Microsoft Power Apps integrated with Power Automate, streamlining workflow approvals and automated notifications.
- Built a ServiceNow Catalog tool for the 3DR Support Platform, supporting AEM-related requests with automated workflows and tracking.
- Handled Quality Assurance (QA) for the Two-Factor Authentication (TFA) project using the 1Kosmos App.
- Authored technical papers, whitepapers, user manuals, and IT support documentation.

Software Engineer

Yondu Inc. | Taguig City | February *2021 – February 2023*

- Developed and maintained a Finance and Accounting System using .NET Core C#, deployed on AWS for scalability.
- Developed and maintained front-end components using React for 1 year, building interactive and responsive user interfaces.
- Integrated payment gateways via REST APIs, ensuring seamless and secure transaction processing.
- Designed an automated reconciliation system for manual POS uploads, improving accuracy and efficiency.

- Implemented automated job scheduling with Hangfire to optimize background task execution.
- Utilized MS SQL and PostgreSQL for database management and query performance optimization.
- Worked with Microsoft Dynamics 365 to integrate financial data and automate workflows.
- Monitored and resolved technical performance issues, minimizing system downtime.
- Participated in Agile sprints, stand-ups, and retrospectives for efficient delivery cycles.

Analyst Programmer

InsiteMY Systems | Makati City | June *2019 – August 2020*

- Developed banking system applications for cheque clearing (outward and inward) and a Signature Verification System using C# MVC Framework, ASP.NET, and MSSQL.
- Programmed a cheque scanner using VB6, enabling automated cheque processing and validation.
- Conducted User Acceptance Testing (UAT) with functional teams, resolving issues prior to deployment.
- Provided on-call support for critical system issues to maintain minimal downtime.
- Gathered and analyzed requirements, collaborating with bank managers to design system features.
- Created detailed technical documentation including user manuals, whitepapers, and IT support instructions.

TECHNICAL SKILLS

Languages: C#, C++, Java, ASP.NET, HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, Unity 3D
Frameworks: .NET Core, MVC, Blazor, Angular, React
API Development: REST, SOAP
Databases: SQL Server, PostgreSQL, MS Access, XAMPP/WAMP
Cloud & DevOps: AWS, Azure, IIS, Jenkins, Sentry
Automation: Hangfire, Power Automate, Power Apps
Methodologies: Agile, Scrum, Unit/Integration/System Testing
Version Control: Git, GitLab, GitHub
Tools: JIRA, Confluence, Lucidchart, Visual Studio, Postman, Swagger
Office & Design: Microsoft Office Suite, Adobe Photoshop, Adobe Illustrator **Operating Systems:** Windows, macOS, Linux, DOS

NOTABLE PROJECTS

Software & Web Applications

- **Clinic Operating System** – Full-stack clinic management system for managing patients, appointments, consultations, treatments, clinic settings, and administrative operations. Using React, TypeScript, Vite, Tailwind CSS, ASP.NET Core, C#, .NET 10, Entity Framework Core, PostgreSQL, Docker, JWT, Serilog
- **INCHEQS SDS/OCS Web App –** Built using ASP.NET and MVC C# for streamlined system and data management.
- **Payee Manager System –** Secure payee management platform developed for Convera.
- **APOI System –** Scalable financial application with automated POS reconciliation and payment gateway integration.
- **Curve Inventory System –** Coffee and beans inventory tracking system built on C# .NET Core.
- **Electronic Diary –** Bootstrap-based web application for personal and academic use.

Banking & Financial Systems

- **Cheque Clearing & Signature Verification –** Automated inward/outward cheque clearing using C# MVC, ASP.NET, and MSSQL.
- **Foreign Exchange Rate Integration –** API bridge for real-time exchange rate retrieval and processing.

E-Learning, Games & Research

- **English E-Learning System –** Interactive learning platform built with VB.NET.
- **Ikomunikator (Thesis) –** Sign language-to-text and voice conversion system using the Dynamic Time Warping Algorithm.
- **Music Hero –** 2D Unity-based rhythm game.

EDUCATION

Bachelor of Science in Computer Science
Lyceum of Alabang • 2015 – 2019 |

High School
Mater Ecclesiae School – Harmony Homes Village, San Pedro, Laguna • 2011 – 2015

Elementary
Magsaysay Elementary School – Magsaysay, San Pedro, Laguna • 2005 – 2011

CERTIFICATIONS & ACHIEVEMENTS

- Royal Institute Singapore International Certification – Level 2 (Computer Programmer Assistant)
- National Certificate (NC II) – Computer Systems Servicing (TESDA Certified)
- National Certificate (NC II) – Electronic Product Assembly & Servicing (TESDA Certified)
- Dean's Lister – Recognized for academic excellence at Lyceum of Alabang
- Iskolar ng Lungsod ng San Pedro – Recipient of the City Scholarship Program

SEMINARS & CONFERENCES

- Youth Congress on Information Technology (Y4IT) – SMX Convention Center
- 5th PSITE-NCR IT Student Congress – Adamson University, January 2017
- 4th PSITE-NCR IT Student Congress – Adamson University, January 2016 • PROXOR Seminar – Lyceum of Alabang, July 2016
